(IF ONE LIFETIME MEANT) FOREVER

written by Dan Parks

A diamond ring, a summer afternoon
Can't believe how many years it's been
It took an act of God to find you
And our love is just as strong as it was back then

And you know that if one lifetime meant forever
Well, I'd hold your hands and say my vows again
If we could only make this lifetime last forever
I know without a doubt this love would never end

Through the years we've had our troubles, yes it's true
There've been tears of joy and many tears of pain
Whatever you and I may go through
I want you to know I wouldn't change a thing

And you know that if one lifetime meant forever
Well I'd hold your hands and say my vows again
If we could only make this lifetime last forever
I know without a doubt this love would never end

And you know that if one lifetime meant forever
Well I'd hold your hands and say my vows again
If we could only make this lifetime last forever

I know without a doubt this love would never end

And you know that if one lifetime meant forever

Well I'd hold your hands and say my vows again

If we could only make this lifetime last forever

I know without a doubt this love would never end
