WITHOUT YOU

written by Terry Parks

Every morning when I wake up

I wanna first think of You

Thank You for your love for me, and

How You make all things new

Every step of my way is brighter

When I'm walking with You

My life is not worth living without You

When the darkness falls around me

Storms are everywhere

I remember that You are with me

I'm always in your care

Every night as I lay my head down

May my thoughts be of You

Thinking how You are my Good Shepherd

Always seeing me through

You are always so faithful to me

Every promise is true

My life is not worth living without You

When the darkness falls around me

Storms are everywhere

I remember that You are with me

I'm always in your care

So every morning when I wake up

I wanna first think of You

Thank You for your love for me

And how You make all things new

Every step of my way is brighter

When I'm walking with You

My life is not worth living without You

No, life is not worth living without You

Without You
