YOU LOVE ME

written by Terry Parks

I look into your eyes and see

The one who cares so faithfully

The one who makes me feel so free

And you love me

I know for sure your heart is mine

Devoted fully all the time

You're made for me by His design

And you love me

I will never wonder

If God heard my prayer

The answer came like thunder

And you were there

You're patient with me and so kind

Doing all with me in mind

Even though your love's not blind

Still you love me

You accept me, flaws and all

Know you'll lift me when I fall

Always there each time I call

Yes, you love me

Life is so much brighter

Walking side by side

We'll hold each other tighter

Anytime we've cried

Our troubles may be great or small

Even if the sky should fall

I will love you through it all

As you love me

Hand in hand together

We can face any storm

No need to worry whether

We'll be safe and warm

All the way our whole life through

Every day we'll say, "I do"

That's because I so love you

And you love me

Life is so much brighter

Walking side by side

We'll hold each other tighter

Anytime we've cried

All the way our whole life through

Every day we'll say, "I do"

That's because I so love you

And you love me
