ABUNDANT LIFE

written by Terry Parks

Abundant life He came to bring

Abundant life makes our spirits sing

And if you're tired of just existing

Here's the real thing

It's Jesus, and He's giving abundant life

Living water from you will flow

And all of the people around you will know

That there's Someone very special causing you to grow

It's Jesus, and He's giving abundant life

Abundant love will shine through you

And all of your life will be made new

And you'll find yourself doing things that you could never do

It's Jesus, and He's giving abundant life
