CHOSEN GENERATION

written by Terry Parks

Signs of the times point to his coming

Never has a day been so exciting

While shades of night appear

Opportunities shine clear

For we are a chosen generation

A chosen generation

Bringing Christ to every nation

Time is short and there's so much to do

Across the street, across the hall

Across the oceans too

A chosen generation, me and you

Chosen vessels fit for the master

Sharing Christ with those who face disaster

In his love we're unashamed

We'll succeed in Jesus' name

For we are a chosen generation

A chosen generation

Bringing Christ to every nation

Time is short and there's so much to do

Across the street, across the hall

Across the oceans too

A chosen generation, me and you

God has given us His Holy Spirit

To make the message plain to those who hear it

We never are alone

We couldn't do it on our own

For we are a chosen generation

A chosen generation

Bringing Christ to every nation

Time is short and there's so much to do

Across the street, across the hall

Across the oceans too

A chosen generation, me and you

A chosen generation, me and you
